05

## Fresh contact

P. 10

Purchase & sales

# FINEST ORGANIC PRODUCE BY THE NORTH SEA:

Our fields in the western part of Dithmarschen are located directly along the North Sea coast, featuring nutrient-rich soils and clean air – in short, optimal conditions for vegetable cultivation. You can taste it in our peas and carrots, cauliflower, broccoli, and in the many other organic varieties we grow in accordance with the strict Demeter, Bioland and Naturland guidelines on over 1,200 hectares of land.

In addition to our own vegetables, we market and process produce from local farmers. We exclusively deal with organic products, ensuring that our vegetables are traceable down to the field of cultivation and undergo rigorous quality controls.
